c. 1690

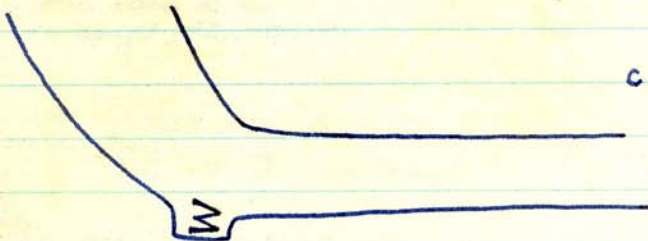

Possibilities:

William Britaine 1693

William Bill 1694

William Bray 1719

c. 1720

Several at Bankside

One from Wincletown with Royal Arms

0

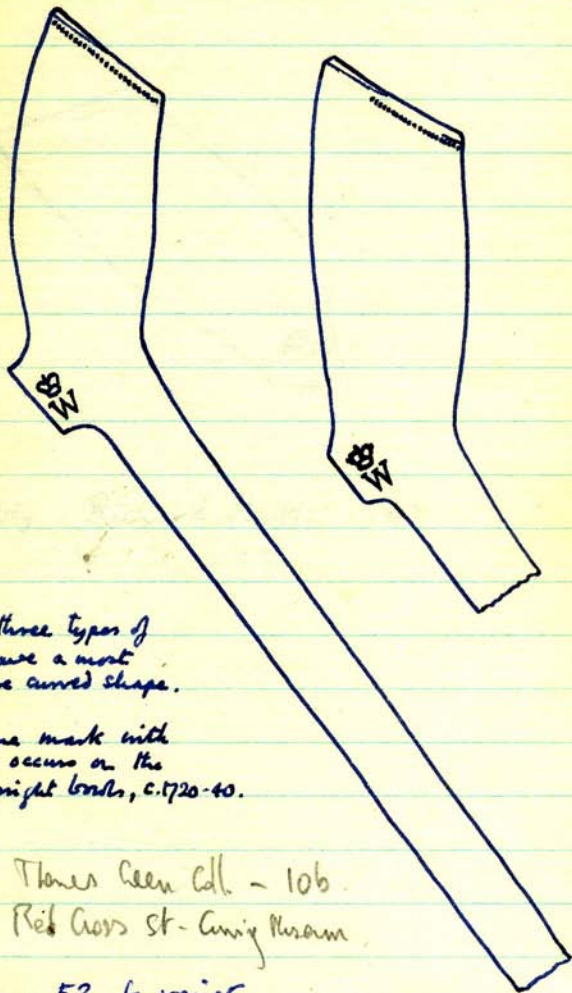

5cm

W. M.

W. M.

2.

c. 1690

Two or three types of
bowls have a most
attractive curved shape.

The same mark with
initials occurs on the
later upright bowls, c. 1720-40.

Also Thomas Green Coll. - 106.

Ref Cross St. - Curry Museum.

See page 53 for variety.

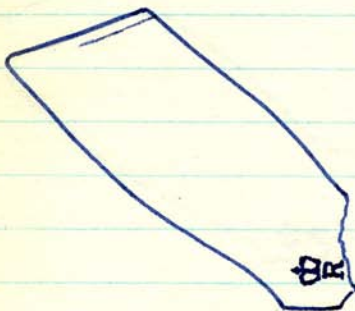

M. W.

R. H

3.

c. 1690

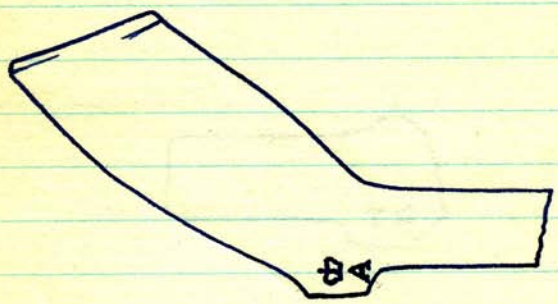

Possibly : Richard Higgs 1689

Also Gurbell etc

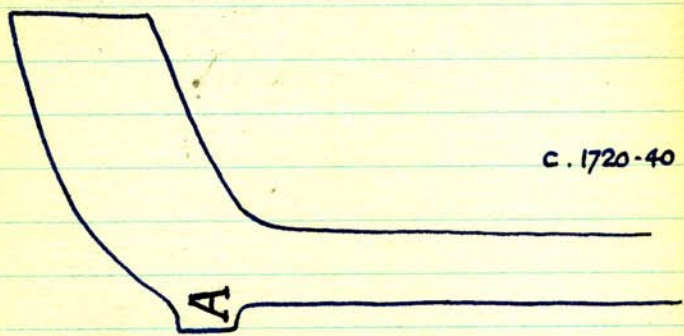

A.S.

c.1690

The S. other side, is smaller than the A.

c.1720-40

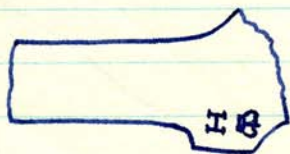

Large A and S. - Thores - Green Coll - London
 Thores - also owned - Meridian estate
 10c owned - Thores Green Coll

T. H.

c. 1690

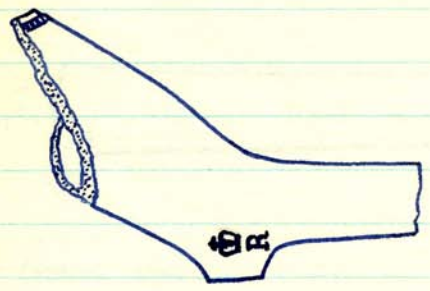

Possibly Thomas Harvey 1729, but this
is really too late for the type of pipe.

Also Arthur Andrews appeared to
C. L. B. Report 1716.

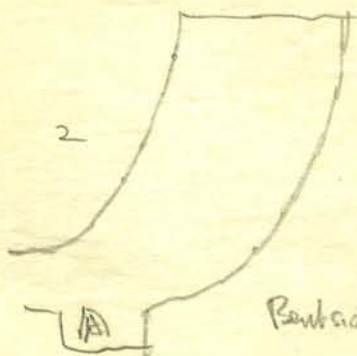

Probably Anthony Andrews, 1693-1715.

Several different moulds were used.

Ban Risk
with a group
dated 1720-70.
Double Struck.

Ban Risk Camp as above.

Ban Risk in a Camp
dated 1700-30

9mm

Both sides of Spur
9mm. Type 2 p2.
Ban Risk
Thames - Green Coll / G.H.M.

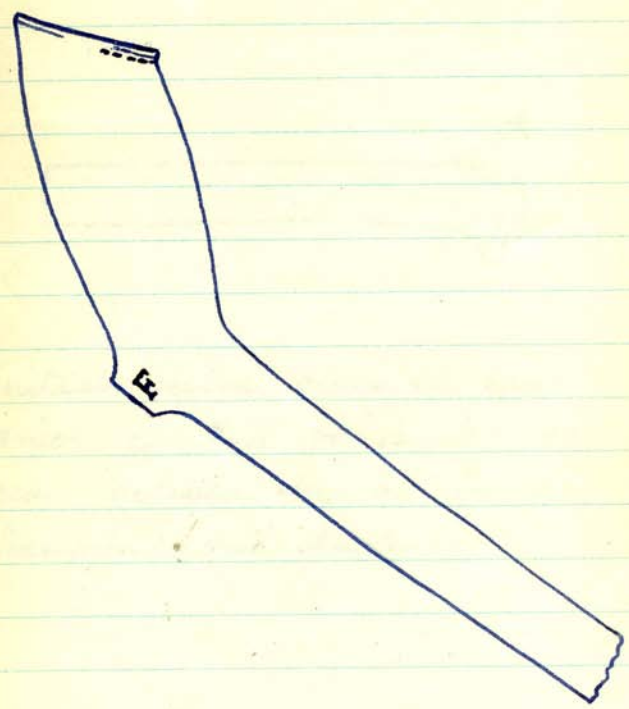

10mm

Both sides Spur
Green Coll - Type 2

F.R.

c.1690

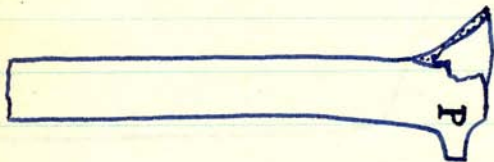

Possibly Francis Roberts, 1733, but this is really too late for this type, unless any were still in concurrent use with the later upright bowls at that time in London.

I. P.

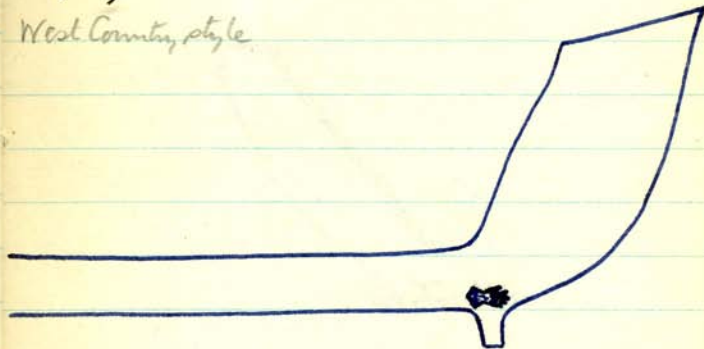

c. 1700

Initials seldom occur on spur pipes of this period, but do occur occasionally in Sussex, Hampshire and elsewhere.

c. 1720

West Country, style

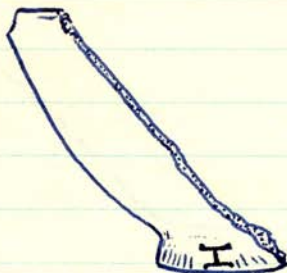

An unusual and late form of
pirating the 'Gauntlett' mark. Each side.

Piece of similar pipe which has
a crown on one side, gauntlett the other.

H.H.

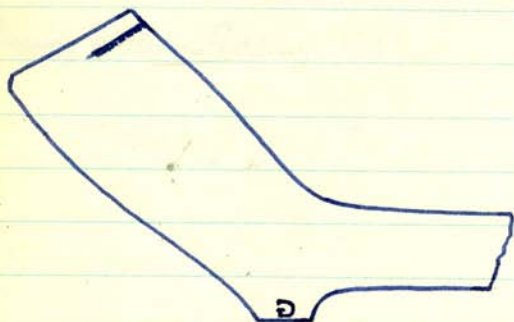

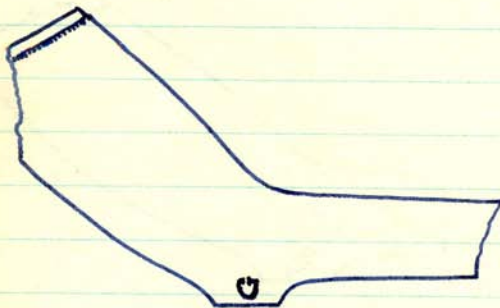

c. 1700(?)

A fragment with very large heel of an unusual bowl (for London). Large 'H' moulded either side; the heel is not properly 'sliced off' underneath, but there appears to be H.H. in circle stamped in relief.

G. M.

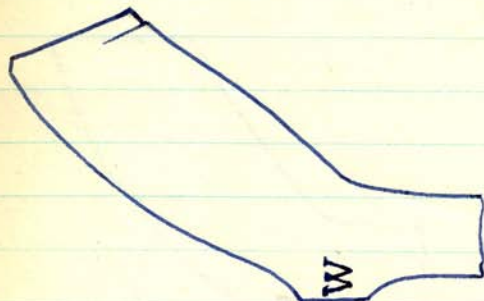

c.1690

'G' reversed, and upright.

W. G.

c. 1690

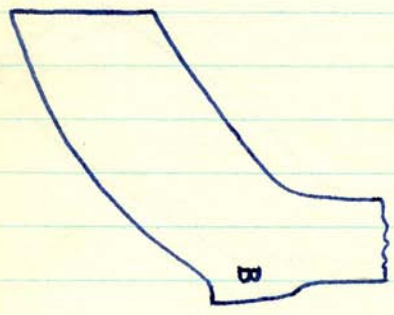

Possibly William Goding 1712.

0

5cm

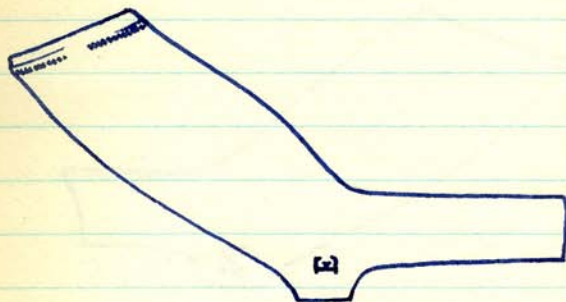

B.G.

c. 1720

E.R.

c.1690

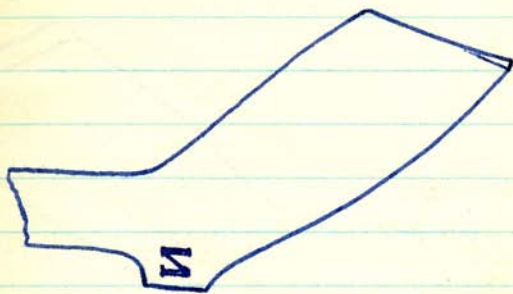

These bonds have a most attractive
curve in their shape.

S. N.

17.

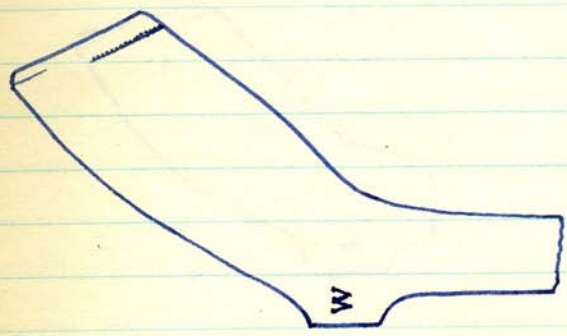

c. 1690

'N' is reversed.

W. M

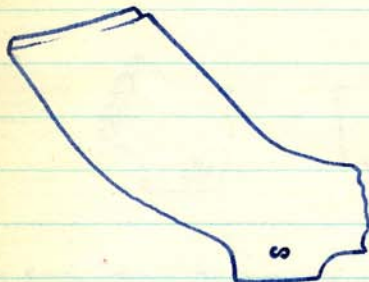

c. 1700

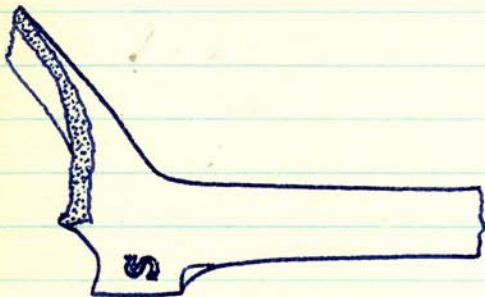

See also page 2.

Also 10b. Bankside

c. 1690
or later.

A rather crude product; small letters.

Larger letters S/T. Milling round base.

An early example of moulded initials on
a late 'heel' pipe.

c. 1690.

W.P. (?)

20.

c. 1690

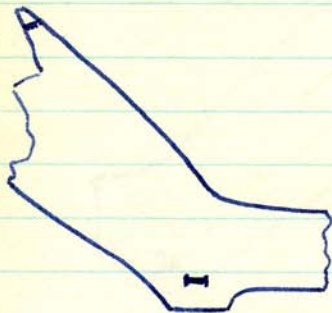

An early form for moulded initials. 'P'
is indistinct.

Q. W.

I. B.

21.

c. 1690

10 b. Thomas Green Coll
Marshall's sea
Salisbury St

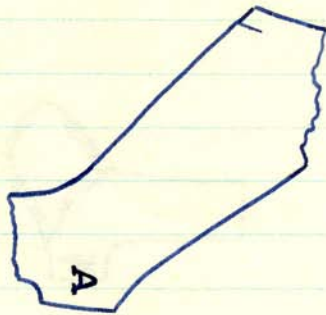

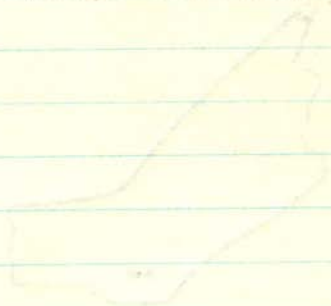

10 b/c. Bondside

10 c. Ground. Green Coll.

N. A. (?)

c. 1690

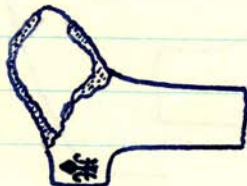

Tup 10h/c - Ban Raide Power Station

The 'N' is smudged, and probably reversed (W).

A fleur-de-lis

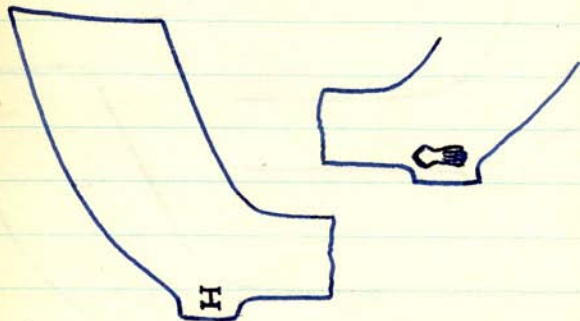

c. 1750

Also found at Romney Marsh.

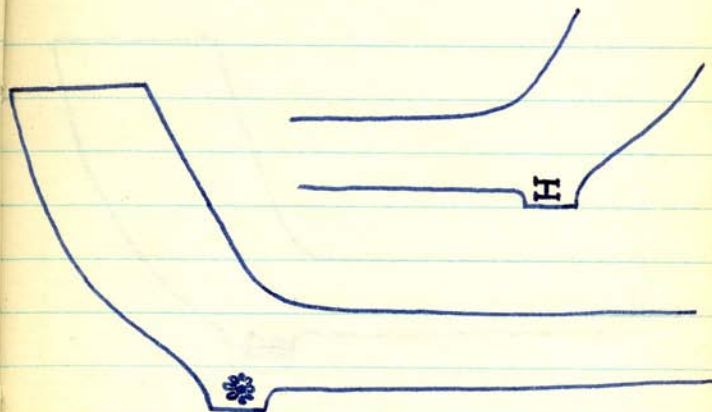

H and a gauntlet.

c.1730

A star and an H.

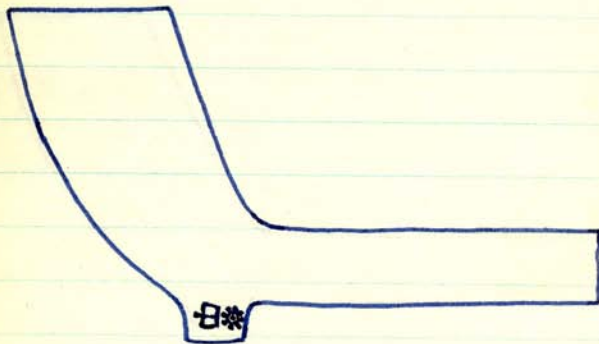

c. 1720

In these the symbol and letter vary in size and in some are on opposite sides.

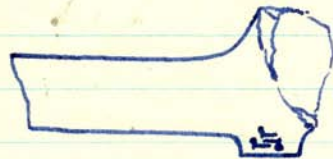

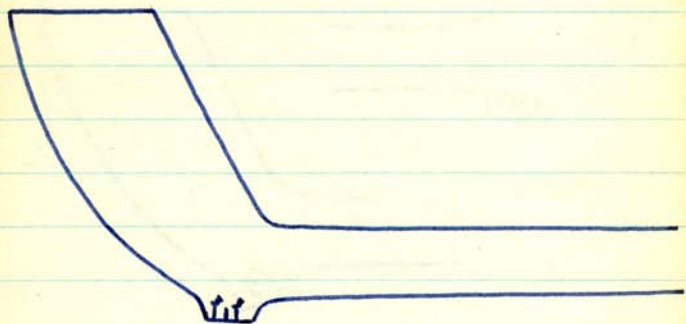

Crown and star each side.

c.1720.

There are several varieties with different types of crowns and stars. Some have additional stamped sun in relief on the heel. See other book.

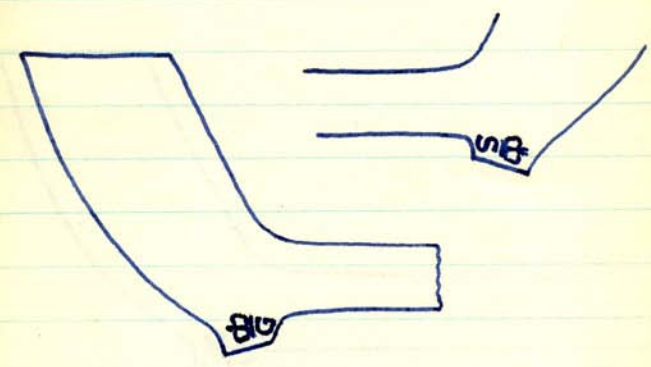

Three pipes one side, a star the other. c.1720.

The pipes are found upright on
an end; and then, on the right or
left hand, stars a pipes. (See also p.31)

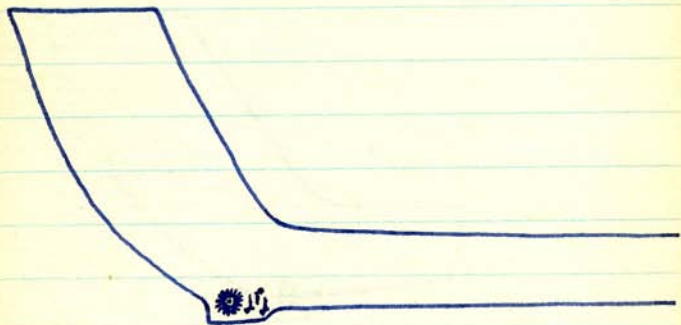

Crown G. Crown S.

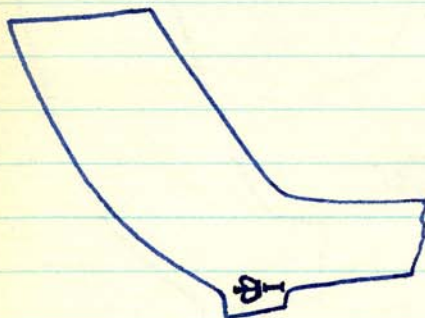

c.1720

Sun and 3 pipes each side.

c.1720

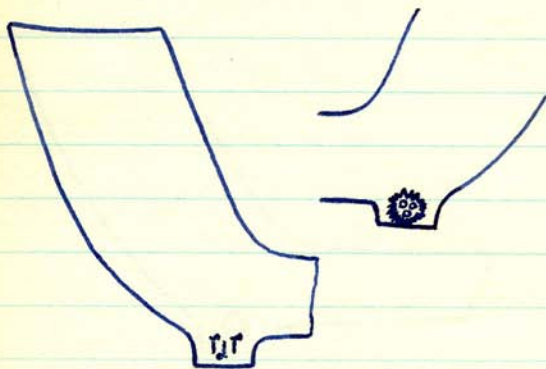

Crown I. Crown P.c.1720

Also Reading, Thomas Green Gull, Bankside
 10c " "
 A number at Reading.

Pipes one side, Sun the other.

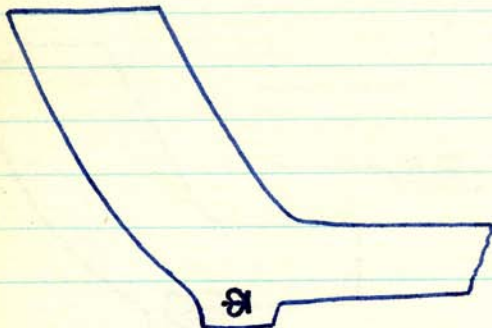

c.1720

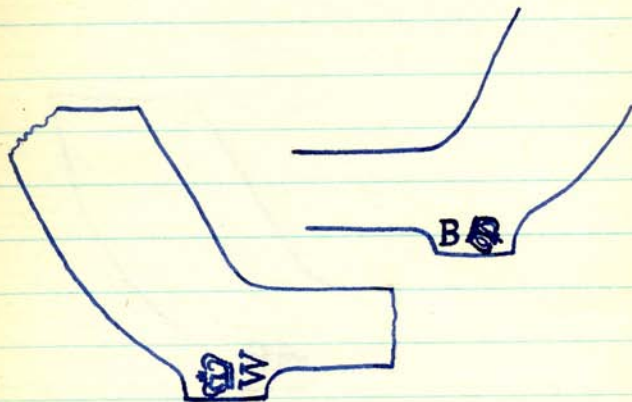

(See also p.27)

Crowns only.

c.1720

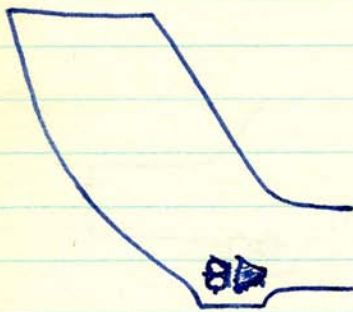

There is a considerable variety of
crown types to be found.

Crown W. Crown B.c.1720.

The W is sideways as usual but the
B is upright.

Crown and Harp each side.

c.1720

QH. Etkin's Coll.

Pipe of this type bears stamp on stem incuse.
1714 or 1727.

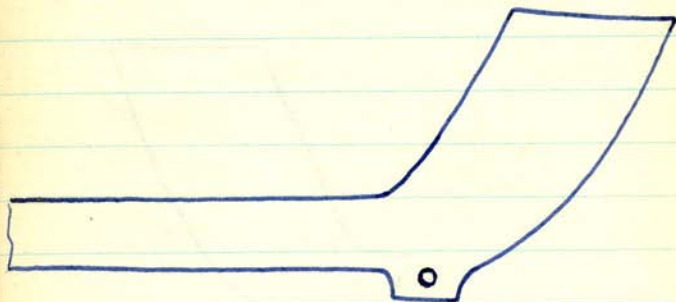

Crown I. Crown G.

c.1720

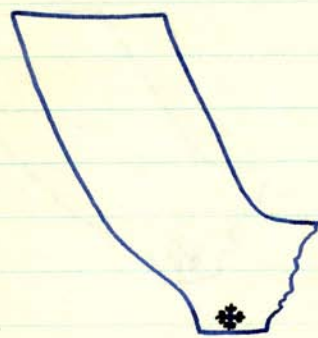

A dot each side.

c. 1720.

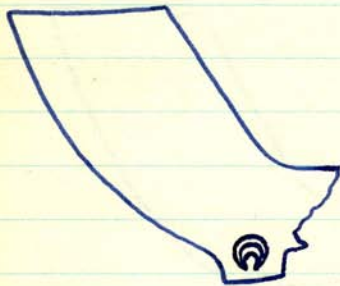

A form of cross each side.

c. 1720.

Crescent each side.

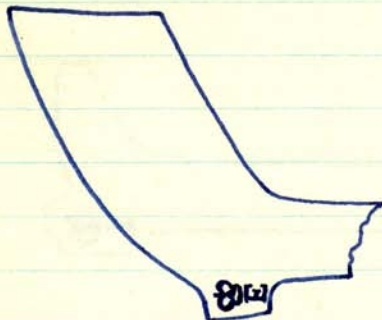

c.1720

The symbol is inverted on the reverse side.

Crown E Crown S.

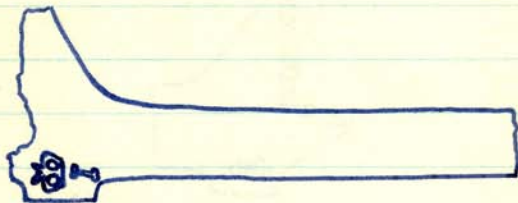

c.1720.

The S is smaller than the E.

Crown I Crown M.

c.1720.

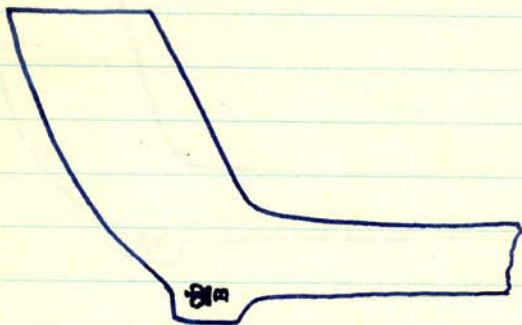

There are two types with these initials.

Crown I. Crown R.c. 1720

106. Thomas - Green Coll - 3 Crowned Wharf
 106 - Reading.

Crown B Crown I.

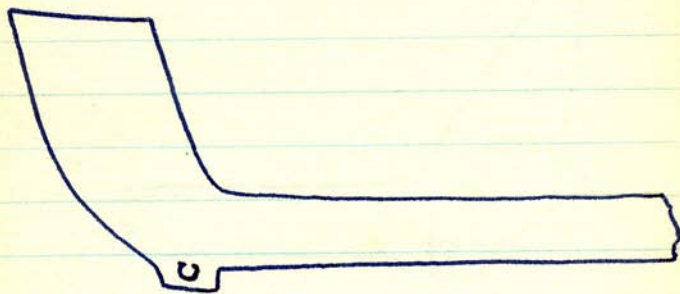

c. 1720

The I is much larger than the B.

C.W.

c.1720-40

Also Green Gold Thoms

with type K:

Linehouse Field - Skeray

Perhaps Christopher Waplesmith 1760 Spittal Sq.

A. H.

c.1720-40

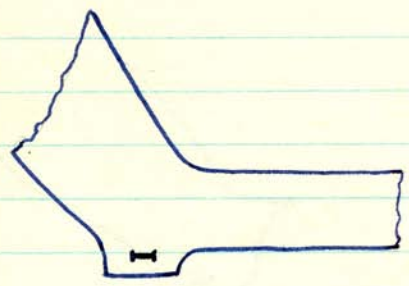

There are literally hundreds of this type to be found in London with various initials.

I. H.

c.1720-40

A.F. or A.P.

c.1680-

4
Two examples

The initial on the other side is slightly smudged.

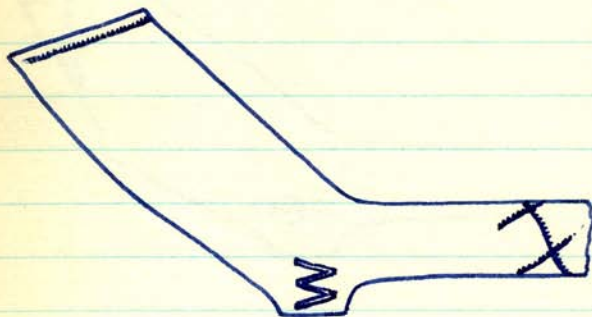

This is a most unusual type, being West Country style with London type marking.

9A-9A

W.T.

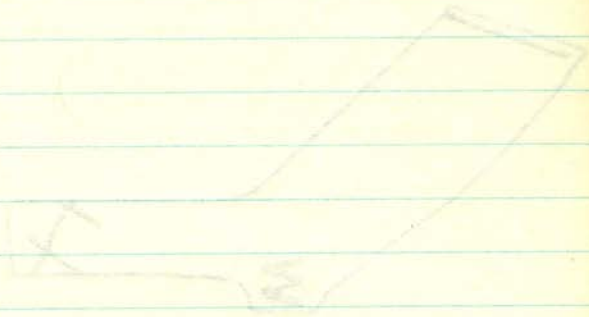

48.

c.1690

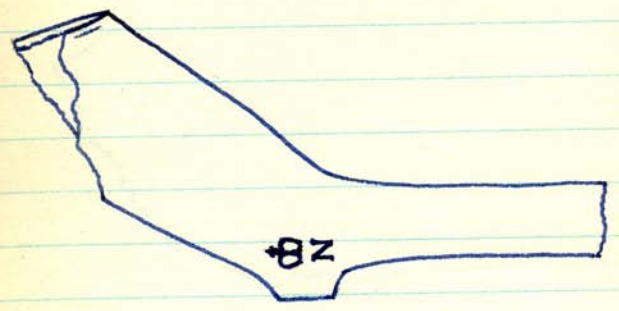

Most unusual type; criss-cross milling
on stem and extra large letters.

T.W

N.B

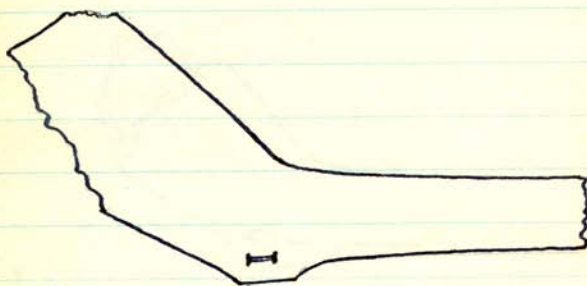

c.1690

Also Green Coll Flues.

I. H

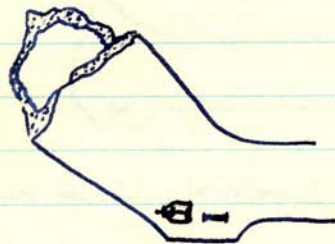

c. 1690-1710

I.C.

Crowned

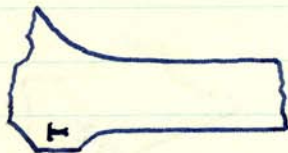

c.1690-1700

3 Cranes Wharf.

T. M.

c. 1700

Very small initials. William III type.

Also Harrod's, Bames, 1777.

W.M

c. 1690

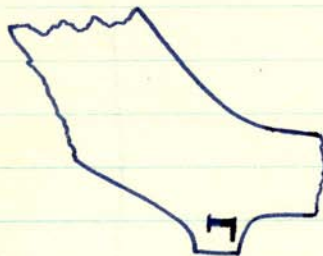

Queen's Hill

This a variety of the kind shown on page 2
but on the 'M' side the crown is moulded
out of line with the initial.

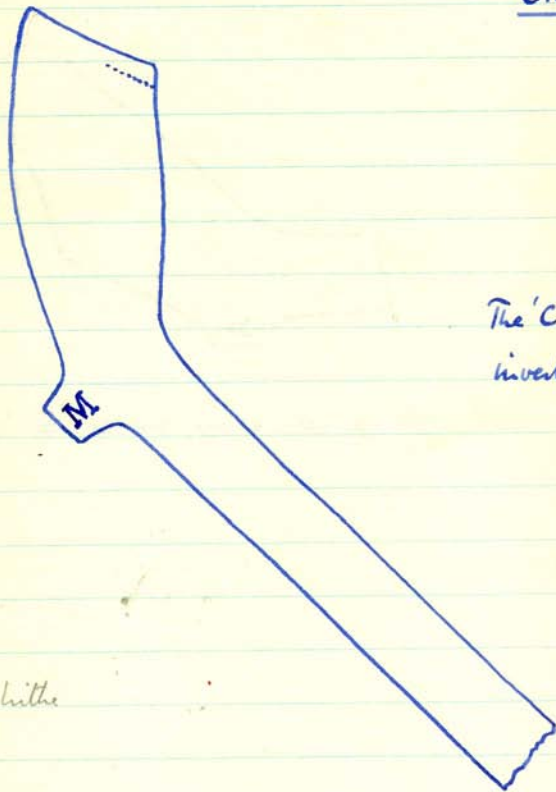

L.W

c. 1690

QH

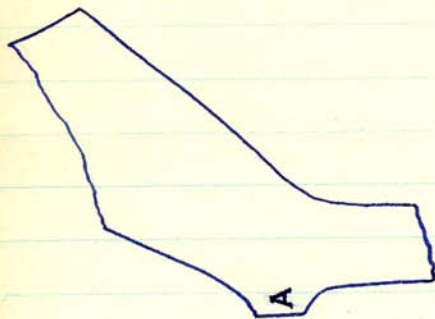

This pipe shows a normal 'W' but incomplete
and reversed 'L'.

M.C.c1690

The 'C' is
inverted.

Queen litho

This type, (found dated 1683), is extremely rare with moulded initials on the spur and must be one of the earliest to be produced with this new form of marking.

A.Cc1700

The C on reverse could be a G.
